

The 10.18

The 10.18

The 10.18 is the launch collection of Ivar. It breathes the sentiment of the brand: born in India and launched in the Maldives. The result is a stunning collection of earrings, bracelets, rings and necklaces, all of which are a combination of gems with white or rose gold.

The gems are a mirror of the stunning natural colours that paint the Maldives islands. Polki or crystal clear diamonds cut in the traditional Indian fashion reflect the beautiful sunlight playing on the waters. The many hues of sapphire echo the endless tones of the Maldivian lagoons.

The unique combination of gold, the natural element of the gems, and beautiful designs gives the 10.18 a relaxed yet elegant appeal ideal for all occasions.
